Cc: Fischer, Timothy <[Fischer.Timothy@epa.gov](mailto:Fischer.Timothy@epa.gov)>;

I'm fine with that.

**Subject:** FYR question

Tom –

MPCA has asked me to attend the FYR inspection for the General Mills site and then later to review the draft report. As you'll remember, this Site is still in the in the enforcement deferral program, we didn't sign the ROD and don't require the FYR. But MPCA would like our technical support on their FYR especially considering the public visibility of this Site.

I am assuming I should go ahead and give that support – is that right?
